

CITIZEN ALERT POLICY

CITIZEN ALERT POLICY. Alerts are tiered: ADVISORY (informational, app push), WARNING (act soon ? push + SMS to affected wards), EMERGENCY (act now ? push, SMS, TV/radio break-in, siren activation). Emergency alerts require EOC commander approval unless automated criteria are met: flood probability above 90%, confirmed dam release, or a hazmat plume model intersecting a residential zone. All alerts are logged with issuing authority, timestamp, affected zones, and message text for post-incident audit.
