

FLOOD RESPONSE SOP

FLOOD RESPONSE STANDARD OPERATING PROCEDURE ? City Disaster Management Authority.

Activation levels: Level 1 (advisory) when 6-hour rainfall exceeds 50mm. Level 2 (alert) when rainfall exceeds 80mm or river gauge reaches 4.0m. Level 3 (emergency) when river gauge exceeds 4.5m danger mark or flooding is reported in 3+ wards. At Level 2: pre-position rescue boats at Yamuna Bank, Kurla and Bellandur stations, open designated shelters, and issue push advisories to low-lying districts (Yamuna Bank, Kurla, Andheri, Bellandur, Gurugram sector roads). At Level 3: activate the Emergency Operations Center, deploy NDRF liaison, suspend traffic on Minto Bridge Underpass and Andheri Subway, and begin evacuation of ground-floor residences in flood zone A. Hospitals must shift ground-floor patients and verify generator fuel for 72 hours.
